

# SMILE & BODY

DR. CHRISTOPHER BLUE AESTHETIC MEDICINE PHYSICIAN  
 DR. KRISTEN KUPEYAN, MEDICAL WEIGHT LOSS PHYSICIAN  
 DR. HERMAN KUPEYAN, RESTORATIVE DENTIST

Smile & Body is your all-inclusive state-of-the-art medical facility for Medical Aesthetics, Cosmetic Dentistry, and Weight Loss Medicine. With the joint practices of Restorative Dentist Dr. Herman Kupeyan, Aesthetic Medicine Physician Dr. Christopher Blue, and Medical Weight Loss Physician Dr. Kristen Kupeyan, Smile & Body is able to offer multiple specialized services under one roof. “You don’t have to go to another office and wait. It saves our patients appointment time and travel time,” explains Dr. Herman Kupeyan. “It’s all one office, and everyone works together to provide a broad-spectrum aesthetic practice.”

Whether patients are looking to enhance their smile with treatment options, including veneers, crowns and bridges, dental implants, and/or the revolutionary “Teeth-in-a-Day” smile transformation programs, Dr. Herman Kupeyan has more than three decades of experience to offer. For those looking to renew the look of their skin and eliminate lines, wrinkles, and scars, Dr. Christopher Blue offers Botox, Juvederm, Soft Lifts, chemical peels, and lip augmentation, as well as a variety of other minimally invasive aesthetic services. In addition, Dr. Blue will soon be expanding to include minimally invasive full-body aesthetics procedures, including a variety of laser treatments and body sculpting remedies. Dr. Kristen Kupeyan provides weight loss medicine services tailored specifically to individuals’ medical needs, goals and objectives. “It’s amazing to watch patients change their lives and become happier and more self-confident as they achieve their weight loss goals,” says Dr. Kristen Kupeyan. With all their options located in one office, it is easy for patients to explore possibilities and create a plan that works for them. “We are here to develop relationships,” explains Dr. Herman Kupeyan. “We are not about fast turnover. Patients that are with us stay with us for a long time.”

The Smile & Body office puts clients at ease with its welcoming atmosphere and friendly reception staff. As you walk through the front door, you immediately feel cared for. All procedures take place in-house and are performed by one of the Dental or Medical professionals. Smile & Body even houses a fully licensed operating room, as well as its own laboratory for both medical and dental work fully customized for each patient’s needs.

With Smile & Body’s convenience, relaxing atmosphere, and professional experience, patients leave with a boost in self-esteem and often only one regret: that they didn’t choose to come in sooner. “One of the things I hear a lot of is, ‘Why did I wait so long to do this?’” says Dr. Blue. “We change lives. It’s as simple as that.”
